Subject: <mark>Please review new CLI for BGP feature</mark>: CSCek5535 - BGP Dynamic neighbor subnet-range provision
Received(Date):   Mon, 12 Feb 2007 08:22:33 GMT

Hi,

<mark>The following is a new CLI that will be added for the new BGP feature</mark>:
CSCek55355: BGP Dynamic neighbor subnet-range provision
EDCS-544373

<mark>Please review it and let me know if you have any comments.</mark>

R1(config)#router bgp 1
R1(config-router)#<mark>bgp listen </mark>?
 <mark>limit Set the max limit for the dynamic subnet range neighbors</mark>
  range subnet network range
  <cr>

R1(config-router)#bgp listen range ?
  A.B.C.D subnet range <network>/<length>, e.g., 10.0.0.0/24

R1(config-router)#bgp listen range 10.0.1.0/12 ?
  peer-group Member of the peer-group

R1(config-router)#bgp listen range 10.0.1.0/12 peer-group ?
  WORD peer-group name

R1(config-router)#bgp listen range 10.0.1.0/12 peer-group FOO

<mark>R3(config-router)#bgp listen limit ?</mark>
 <mark><1-1000> max number</mark>

Thanks
Satish
